Kent County is offering a recycling grant program for property managers at apartment and condo complexes in Kent County.

Recycling helps reduce waste going for disposal and puts valuable plastic, metal, paper and glass back into our economy as new products.

In the grant program, Kent County will provide:

The container. Kent County will purchase a 10 yard recycling container for use by residents in apartments and condos where curbside recycling carts are not available.

Resident education. Kent County's Resource Recovery Specialists will work with the waste hauler and the property manager to provide education to residents to encourage proper use of the recycling container.

The property manager will be responsible for:

The service contract. Working with a hauler of your choice, contract for recycling hauling services. Recyclables must be hauled to the Kent County Recycling & Education Center.

Space for the container. Provide a dedicated outdoor area for recycling activities at your complex.
